The BIG picture

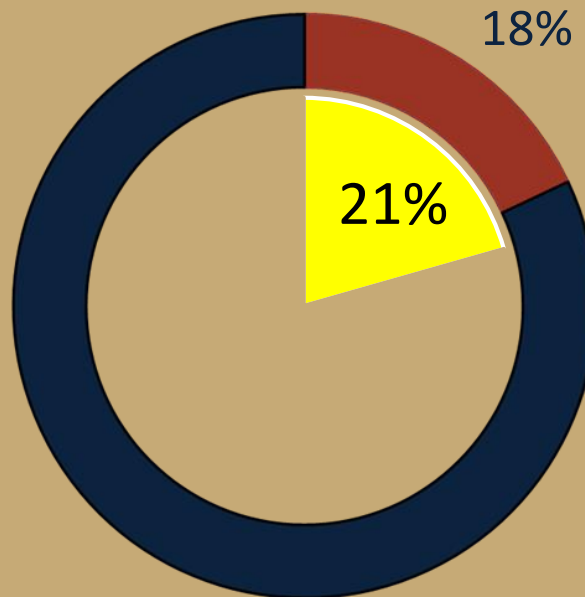

* 2019-10-18

Increased Footprint from the construction and real estate sector...

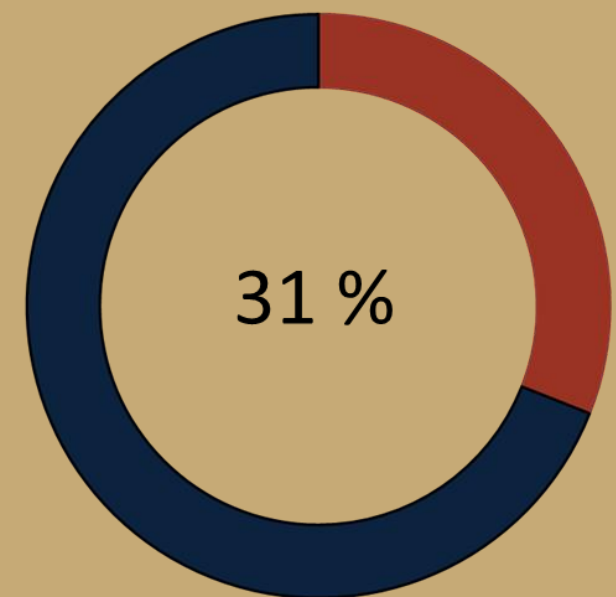

Used energy

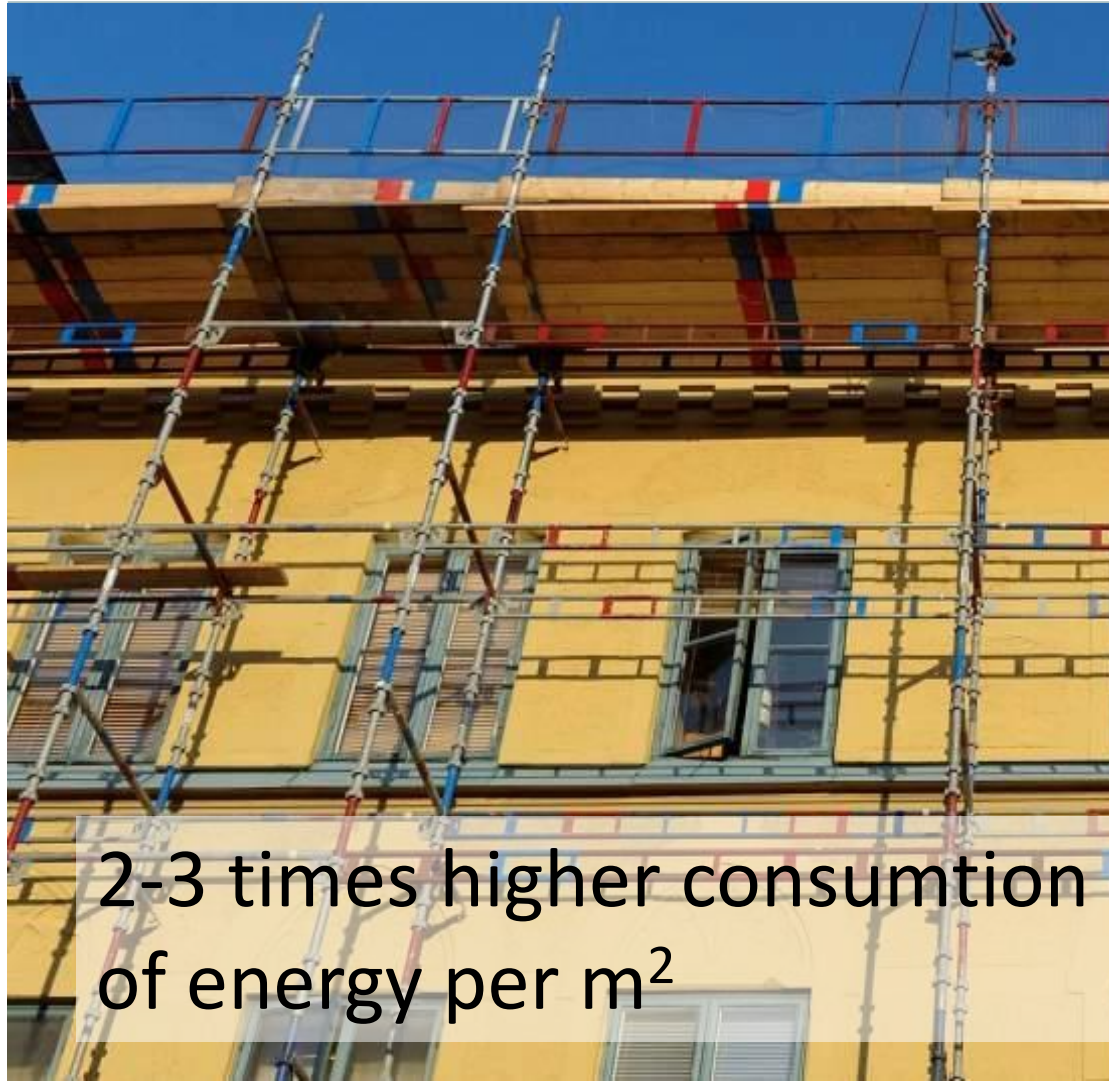

Emitted greenhouse gas

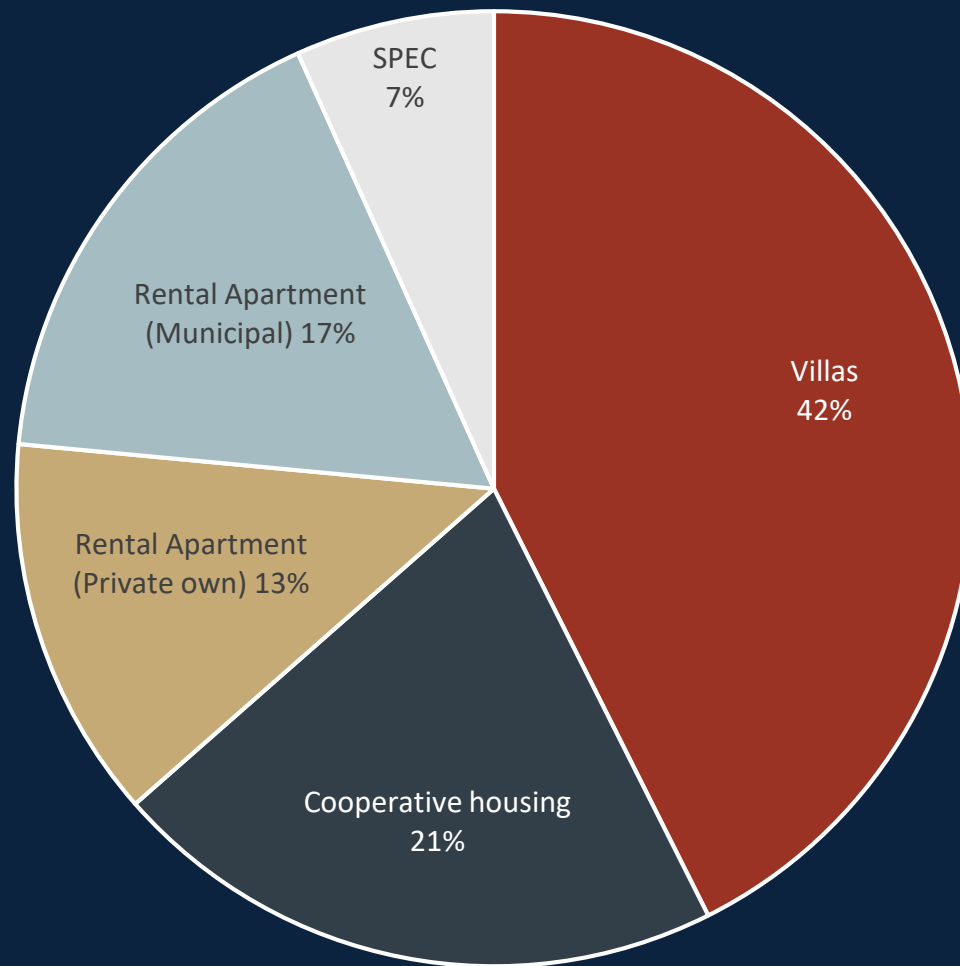

Generated waste

The structure of the existing residential building stock..

The ownership of the residential building stock

COMPANIES WITH MORE THAN
FIVE EMPLOYEES

The challenge is to make many
take small steps

Don't forget the
construction
material
(70-80% of LCA in newbuild)
